Dear Motocross Riders and Families,

World Motoplex is developing a state-of-the-art indoor motocross track in North San Diego. This new facility will have a main track that is about the same size as an AMA Supercross course with vet and pro lines for riders of all abilities. It will also have a super mini-track for kids. Both tracks will feature electronic timing systems, accurate to 100th of a second, and full-time video capture so you can review each practice lap in detail, capture your first tail-whip, or remind your buddy over and over again just how fast you really flew by him !

One of the largest and most awesome sites chosen has received a lot of opposition from a few members of a small community in San Marcos called San Elijo. We spent hundreds of hours and tens of thousands of dollars designing this incredible facility into a family action sports park complete with an indoor go-kart track, indoor motocross track, skateboard park, and a wave pool. We even listened to members of the community revising our plans to include a resort-style pool and fitness center for them. Just months away from submitting final plans to the city for permits, we ran into every rider's nightmare... a small but vocal group of community members promoting the false belief that motocross riders represent all that is bad in this world, creating noise, traffic, and pollution, threatening to ruin their community.

Even though we have spent tens of thousands of dollars providing detailed noise, traffic, and air pollution reports and data that PROVE this isn't the case, this small group has the political voice to slow our progress until we demonstrate how large our base of support really is.

We already know we pass sound, environmental, traffic, fire and engineering requirements. Now we need to demonstrate to the City Council, the community, and ourselves exactly how many supporters and riders we actually have in San Diego County.

If you would like to learn more, please visit <http://www.worldmotoplex.com> and register yourself as a supporter or pre-enroll yourself as a member now. We have two awesome sites currently selected and we need your help to get the plans approved by the city and the community. Both sites are within a 15 minute drive of the I-15 or I-5 and highway 78. One of the sites in Vista could be a reality in as few as 4-6 months with enough rider support!

Don't let a few members of the community stop us from building a world class track that is so greatly needed in San Diego!!

Please log onto to <http://www.worldmotoplex.com> now to register. **Please forward this e-mail to all your friends and family members to register also.**

Thank you for your time and support!!
